SUMMARY

Dynamic **Full Stack Developer** with robust experience in developing, maintaining, and optimizing over 10 + web applications using the **MERN** and **Mean** stack. Led full-stack projects across healthcare, cryptocurrency, and e-commerce industries, integrating third-party APIs and enhancing functionality. Seeking to leverage skills in a challenging role, driving product innovation through technical expertise in MEAN and MERN technologies.

EXPERIENCE

Full Stack Developer Js

Rowthtech

January 2025 - April 2025, Chandigarh

- Developed, maintained, and optimized over 10 web and mobile applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Led full-stack development for projects in industries like healthcare (EHR/RCM systems), cryptocurrency (crypto exchange platforms), and e-commerce (custom online stores).
- Integrated third-party APIs, payment gateways, and real-time data services to enhance product functionality.
- Ensured code quality, performance optimization, and best practices in development through regular code reviews and agile methodologies.

PROJECT

Probill EHR

Rowthtech • October 2024 - April 2025

- Developed and maintained a full-featured Electronic Health Records (EHR) platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed and implemented secure REST APIs for patient management, billing systems (RCM), and health data integration.
- Integrated AWS S3 for secure medical document storage and retrieval, ensuring HIPAA compliance.
- Built complex backend logic for appointment scheduling, insurance claim processing, and invoicing workflows.

Platypus Crypto Exchange

Rowthtech • April 2024 - August 2024

- Developed a secure, high-performance cryptocurrency exchange platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built real-time trading modules, live price tracking dashboards, and wallet management features using WebSocket APIs.
- Developed robust user authentication and KYC verification systems, improving user security and reducing fraud incidents.
- Integrated blockchain APIs and third-party crypto payment gateways for seamless deposit and withdrawal operations.

EDUCATION

Master of Computer Applications (MCA)

Himachal Pradesh University (HPU) • Shimla, Himachal Pradesh • 2023

SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Angular, HTML5, CSS3/SCSS, Bootstrap

Backend: Node.js, Nest.js

Other: REST APIs, Git, AWS S3, Software Architecture, Development Life Cycle (SDLC), Responsive Web Design, Data Structures, Problem Solving
